DETAILED ACTION

Allowable Subject Matter

Claims 34-54 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record does not teach or render obvious the claimed ionization enclosure at a pressure greater than 100 mTorr and a pulsed laser to direct laser energy at a wavelength absorbed by the matrix and yields simultaneous desorption and ionization of the analyte.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
